

Have you heard of **HANDLE**®?

You are invited to a free community information night:
Beyond Labels:
Neurodevelopmental Perspectives on Behavior and Learning

HANDLE is an effective non-drug, holistic approach
to treating learning, behavioral and neurodevelopmental issues

Peg Simon, Presenter
with **Judith Bluestone, originator of HANDLE**

Peg is a HANDLE Intern and Certified HANDLE Screener, with a reading tutoring background. Judith is Clinical and Educational Director of The HANDLE Institute International, LLC, and author of *The Fabric of Autism: Weaving the Threads into a Cogent Theory*. Among her many distinctions, she received the 2004 Jacqueline Kennedy Onassis award for public service in creating and sharing HANDLE with the world.

Sponsored by
The National Institute
for Learning Development
Discovery Program of Georgia

2104 Fiber Park Dr.
Dalton, GA 30720

Monday, November 24, 2008
7-9 p.m.

HANDLE gets beyond labels, treating the root causes of disordered behaviors. This methodology provides an effective, non-drug alternative for identifying and treating most neurodevelopmental disorders across the lifespan. **HANDLE** incorporates research and techniques from medicine, rehabilitation, psychology, education and nutrition. It is founded on an interactive, developmental model of human functioning.

Pre-registration requested:
