

## HANDLE Intermediate Course

# Screening & Program Development for Neurodevelopmental Differences

January 12- 17, 2009 (Monday through Saturday) - Session I  
February 9 - 14, 2009 (Monday through Saturday) - Session II  
Both sessions required.

To be held in

**Atlanta, Georgia**

at the La Quinta Inn & Suites  
6260 Peachtree Dunwoody  
Atlanta, GA 30328 (Sandy Springs area)

Prerequisite for HANDLE Advanced Training.

Limited Space. Acceptance by Approval of Application Only. Minimum Registration: 9.

Application and an Announcement with more information are available at the Events section of the HANDLE website.

### **Build on your understanding of HANDLE through 12 days of extensive training:**

Classroom instruction on screening and in-depth understanding of the concepts and activities taught in the Introductory Course plus additional HANDLE activities that can be applied in classrooms as well as with individuals. Tutorial session of 4 hours.

Supervised practicum on screening, identifying weak systems, determining appropriate recommendations, and presenting the findings to client families PLUS a half-day for discussing how to proceed from here.

Plus additional small group and individual practical experience.

The course will run 8:30 to 5:30 most days.

**Total Fee: \$2,400.**

**Prerequisite: Completion of a HANDLE Introductory Course within two years of application.** (If your Intro Course was earlier than that, you may take a "refresher" course – call the office for details.)

Includes all course materials;  
does not include travel, lodging, or meals.

View human functioning through the HANDLE perspective and learn to identify neurodevelopmental obstacles that impair academic and social learning. The HANDLE Screening Tool, applied for individuals age 5 to adult with learning and attentional difficulties, also identifies those at risk for such challenges. Learn many appropriate activities and other suggestions to enhance functions for those you screen.

Successful completion of the entire course and a take home exam, plus affiliation with The Institute, will qualify you to apply for certification as a HANDLE Screener.
